

Mater	
Metal processing available	Stamping mould sheet metal fabrication work: tooling making, samples approval, cutting, stamping, punching, tapping, welding, bending and forming, finishing, assembly; CNC parts: CNC lathe milling, CNC lathe turning, drilling, tapping, finishing, assembly, packing
Specification	OEM/ODM, according to customer's drawing or sample
Tolerance	Stamping parts:0.01-0.1mm, CNC machining parts:0.1-0.002mm
Service available	Before mass production, we supply pre-production samples for customer final confirmation, tooling maintenance and tooling slight change free
Packing	Inner packing : polybag ; Outer packing : export cartons ; Customized packing available .
Delivery	By sea or by air;the delivery date is according to specific orders Usually within 30 days after receiving 30% down payment
Payment	First order:T/T 30% in advance, T/T 70% against copy of B/L or L/C

Our company

Houdry was specialized in sheet metal fabrication service, including shearing, punc

hing, bending, laser cutting, drilling, welding and also painting, as well as die making and machining. Has 15 years experience in this field, the products are exported around the world.

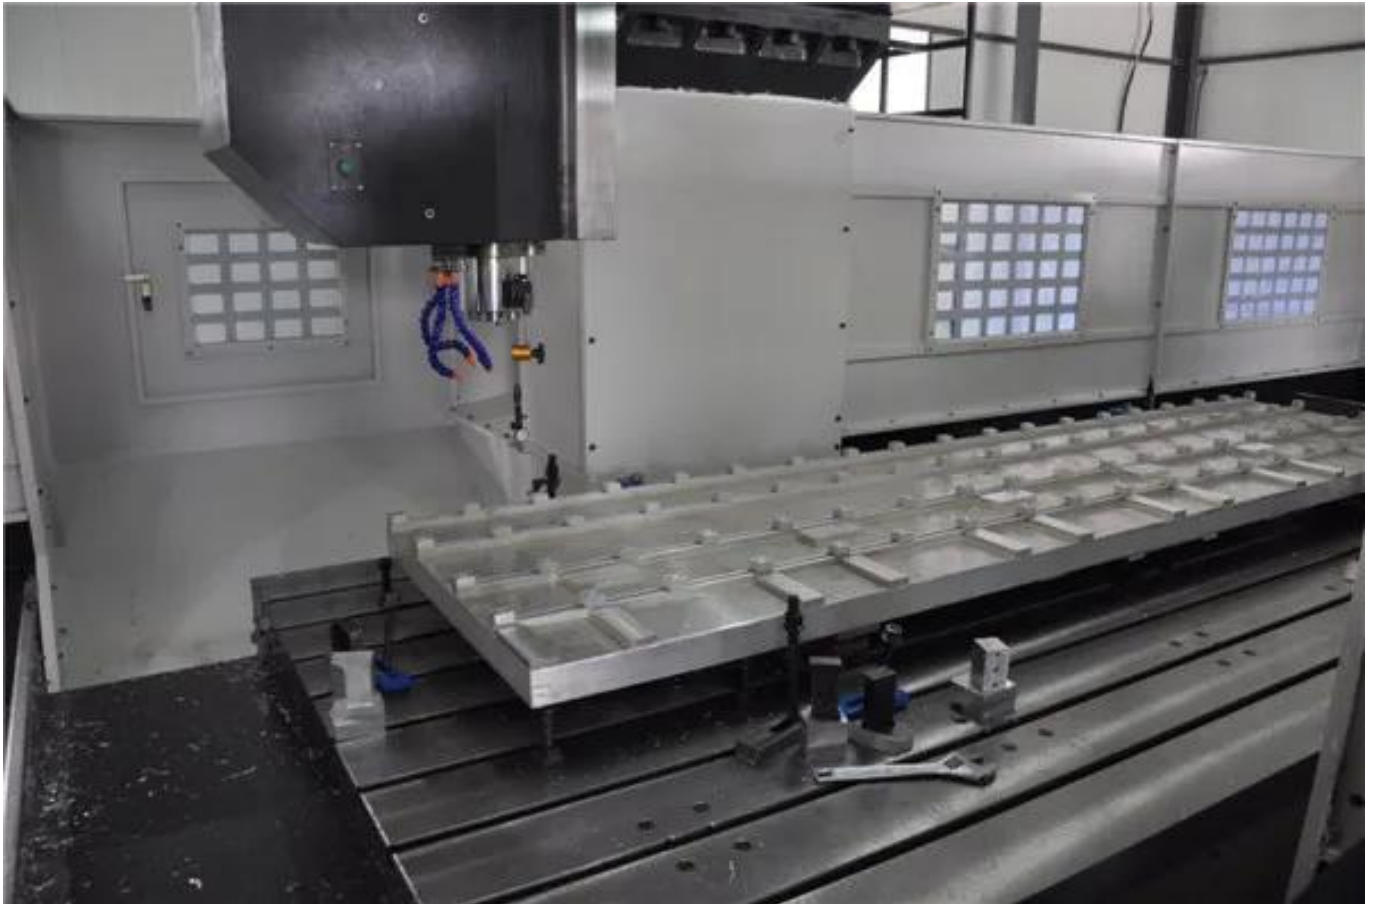

Our equipments

Include stamping machine,CNC punching and bending machine,welding machine,drilling machine,tapping machine,and milling machine,etc.

Obtained Patents

Advantages

1. Over 20,000 times test to ensure it being built safely and durable.
2. Certificate: CE, UL, ISO9001
3. Small order is available.
4. Superior Favorable price Good service.
5. Delivery on time.
6. Well- experienced in providing production for Custom design and OEM order.

TO BE YOUR HONEST DEALER

Rich Experience

10+ years R&D and manufacturing
Export experience 5 years

One Stop Service

Product design
Manufacturing
Surface treatment
Packing solution

Quality Assurance

ISO9001
CE
In-house and third party inspection

ALL FOR YOUR PRE-SALE CONCERNS

Support OEM&ODM

Professional Workforce

10+ engineers
200+ workers
