

custom sheet metal parts, fine fabricated sheet metal, material cutting, bending, drilling, tapping, punching for sheet metal. custom sheet metal parts, fine fabricated sheet metal, material cutting, bending, drilling, tapping, punching for sheet metal.

Item	sheet metal fabrication
Manufacturing process	laser cutting/tapping/riveting
Material	stainless steel
Surface treatment	mirror polishing
Thickness	3.2mm
Tolerance	$\pm 0.1\text{mm}$
Package	Safe carton case or wooden case
Certificate	ISO 9001:2015 /SGS
Shipping	
Payment terms	Fist order:T/T30% in advance, T/T 70% against copy of B/L or L/C
Major markets	North America, West Europe, Australia

FAQ

1. Q: DO you have products in stock?

A: No, we are OEM/ODM manufacturer. We produce parts based on customer's drawing ,and sample.

2. Q: How many types of materials you can provide?

A: We have most of materials to satisfy your products: stainless steel, carbonized steel, aluminium, brass, copper etc.

3. Q: Can you make surfacetreatment ?

A: Yes, we have long term and trusted cooperated factory which can make perfect surface treatment: powder coating, anodizing, electric plating, silk screen.etc.

4. Q: How do you proceed your quality control system?

A: We have 3D CMM, 2D projector, salt spray test equipments, colorimeter, coating thickness gauge and other advanced testing equipment.18 quality requirements to be proceeded for 100% inspection report before shipment.

5. Q: How about packaging ? Is your quoted price including package?

A: Normally we pack products with solid carton box. We can quote you with different packing options, like individual wrapping , blister or even custom design packing.

6. Q: Can I get sample?

A: Yes, free sample which under 20\$ cost can be provided by freight collected.

7. Q: How to get a formal effective quotation?

A: We can provide effective quotation within 48 hours after your drawing or sample received.

8. Q: Can you provide material certificates, treatment certificates and dimensional reports?

A: Yes,certificates can be provided per request before B/L by email.

9. Q: What format is required for sending drawings?

A: JPG, PDF,CAD Solid works,UG, Pro/E, 3D modol will be preferred.

10.Q: What's your production capability?

A: We have laser cutting machines ,NCT punching machines ,bending machine, reiving machines, spot welding machines. Arson welder machines, CO2 welder machines, stamping machines, punching machines. All welding operator have related certificates.
