

Item	sheet metal parts
Manufacturing process	laser cutting/stamping/polishing
Material	stainless steel
Surface treatment	mirror polishing,powder coat, zinc plate,paint,brushing as per drawing.
Thickness of part	0.5mm-16.0mm
Tolerance	±0.1mm
Package:	standard package/individual package for export or as requested
Certificates:	ISO 9001:2015 /SGS
Shipping:	by ocean, by express, by air
Payment term	Fist order:T/T30% in advance, T/T 70% against copy of B/L or L/C
Major markets	North America,West Europe,Australia

Our service

Item	OEM/ODM Sheet metal fabrication
All material	stainless steel/aluminum/SPCC/SECC/CU/SGCC/SHCC,etc
All manufacturing process	laser cutting/stamping/bending/tapping/riveting/welding,etc
Product surface treatment	anodizing/powder coated/millor polishing/plating/wire drawing,etc
Product tolerance	0.01mm-0.1mm

FAQ

1. Q: DO you have products in stock?

A: No, we are OEM/ODM manufacturer. We produce parts based on customer's drawing ,and sample.

2. Q: How many types of materials you can provide?

A: We have most of materials to satisfy your products: stainless steel, carbonized steel, aluminium, brass, copper etc.

3. Q: Can you make surfacetreatment ?

A: Yes, we have long term and trusted cooperated factory which can make perfect surface treatment: powder coating, anodizing, eletric plating, silk screen.etc.

4. Q: How do you proceed your quality control system?

A: We have 3D CMM, 2D projector, stalt spray test equipments, colorimeter, coating thickness gauge and other advanced testing equipment.18 quality requirements to be proceeded for 100% inspection report before shipment.

5. Q: How about packaging ? Is your quoted price including package?

A: Normally we pack products with solid carton box. We can quote you with different packing options, like individual wrapping , blister or even custom design packing.

6. Q: Can I get sample?

A: Yes, free sample which under 20\$ cost can be provided by freight collected.

7. Q: How to get a formal effective quotation?

A: We can provide effective quotation within 48 hours after your drawing or sample received.

8. Q: Can you provide material certificates, treatment certificates and dimensional reports?

A: Yes,certificates can be provided per request before B/L by email.

9. Q: What format is required for sending drawings?

A: JPG, PDF,CAD Solid works,UG, Pro/E, 3D modol will be preferred.

10.Q: What's your production capability?

A: We have laser cutting machines ,NCT punching machines ,bending machine, revieting machines, spot welding machines. Arson welder machines, CO2 welder machines, stamping machines, punching machines. All welding operator have related certificates.

Suzhou Houdry Mechanical and Electrical Technology Co.,Ltd is manufacturer which engaged in sheet metal fabrication service since 2008.Now our factory covers 12,000 square meters with 250 employees including 8 senior engineers, 10 quality engineers. Houdry has good cooperation with SIEMENS, AMAMDA, AMETIK, OERLIKON, MITSUBISHI. Our annual value is 16 millions dollar.

Houdry offices custom sheet metal fabrication service include digital punching, sheet metal digital bending, laser cutting, stamping, and robot welding...etc. We can do surface treatment as painting, anodizing, powder coating, zinc-plating...etc.

Our sheet metal fabrication products are widely used in various areas such as cold chain products, net working products, bus air condition unit, inverter metal forming parts, and track safety door parts.

We are supplier serve for customers all over the world: Germany, United States, United Kingdom, France, Singapore, Sweden, Australia...etc.
