QUESTION

1. How to package the goods?
 - Use a wooden crate for heavy goods, a cardboard box for standard goods, and a pallet for large quantities.
 - Use bubble wrap, foam peanuts, and packing paper to cushion the goods inside the container.
 - Seal the container with strong tape and use straps to secure the load.
 - Add a shipping label with the recipient's address and contact information.
2. How to choose a shipping method?
 - Compare different shipping companies (DHL, TNT, UPS, FEDEX) based on price, speed, and reliability.
 - Consider the weight and volume of the goods to determine the most cost-effective method.
 - Check the shipping requirements and restrictions for the destination.
3. How to estimate shipping costs?
 - A. Calculate the weight and volume of the goods.
 - B. Check the shipping rates for different companies and methods.
 - C. Consider additional fees such as insurance, customs duties, and handling charges.
4. How to ensure the goods are safe during shipping?
 - Use proper packaging techniques to prevent damage.
 - Choose a reliable shipping company with a good track record.
 - Add insurance to protect against loss or damage.
 - Track the shipment and communicate with the carrier.
5. How to handle customs and duties?
 - Fill out the necessary customs forms (commercial invoice, packing slip, etc.).
 - Pay the applicable duties and taxes in advance or at the time of delivery.
 - Provide accurate product descriptions and values.
6. How to choose a shipping agent?
 - Look for an agent with a good reputation and experience.
 - Compare the agent's services and prices.
 - Use Paypal or T/T 100% as payment methods.
 - Contact: T/T 30% advance payment, balance on delivery.
7. How to track the shipment?
 - 1. Use the tracking number provided by the shipping company.
 - 2. Visit the shipping company's website or use their mobile app.
 - 3. Contact the shipping company or agent for assistance.
