

Material	aluminum, copper, brass, stainless steel, steel, iron, alloy, zinc, carbon steel, plastic (POM, nylon, ABS, PC, acrylic, teflon, bakelite, etc.)
Processing Type	turning, milling, grinding, drilling, CNC turning, CNC milling, CNC multi axis, laser engraving, knurled, welding, die casting, injection, broaching, bending, wire cutting, stamping punching
Surface treatment	anodize, powder coating, zinc/nickel/chrome plating, brushing, polishing, painting, carburizing, blackening
Industry focus	Aerospace,Agricultural,Architectural,Auto/Truck/Transportation,Dental,Electronic,Food Processing,Marine,Medical,Military,Natural gas,Packaging/Converting
Machining Equipment	turning machine, milling machine, CNC turning machine, CNC milling machine, CNC turning & milling machine, four-axis milling machine, tapping machine, grinding machine, electronic discharge machine punching machine
Inspection Equipment	100% inspection before shipment Equipment: CMM, projector, caliper, micro-caliper, thread caliper, caliper gauge, pin gauge, height gauge
File formats	STP/ DXF/IGS/DWG/PDF
Market	North America, South America, Eastern Europe, Mideast, Eastern Asia, Western Europe, Northern Europe, Southern Europe
Capacity	100,000pieces per month

Our Workshop

The package also can be customized

- 1.Usually Package tool : poly bag , carton , pallet , wooden case et.
- 2.According to your requirements for the products .

3 .We design the suitable package for you to avoid any damage or scratch .

HOUDRY offers full service sheet metal fabrication services including

- 1.we help our customers end to end with sheet metal projects ,from conception ,design , fabrication , and assembly , to final delivery
2. consider you as our VIP top customer , response within 24 hours any time .
3. We have more than 300 sets machinery ,highly skilled sheet metal fabricators and machine operators Meet you all kinds of high precision and technology product requirements .

FAQ

Q: What material you can make sheet metal fabrication and metal stamping?

A: SPCC, SHCC, SPHC, SECC, SGCC, Copper, Brass, Al6061, Al5052, Al1010, Al1060, Al6063, SUS301, SUS304, SUS203, etc.

Q: What machines do you have in your workshop?

A: Shearing machine, CNC Punching Machine, Laser, Plasma, Water Cutting Machine. Combination Machine, Bending Machine, Press Machine(15-500 ton), etc.

Q: What surface treatment can you do for the parts?

A: Galvanization, Anodized finishing, Chromate treatment, Painting, Powder Coated, Surface Polish, and so on.

Q: What software you can accept for inquiry?

A: CAD, Solid works, UG, Pro/E, Solid Edge, Top Solid, etc.

Q: What package you do for the parts before delivery?

A: For the small parts, we will pack it as PVG bag + Paper box.

For big part, we can make wooden case, or pallet.

Q: Could you offer OEM service?

A: Yes, we can offer OEM & ODM service, and offer NEUTRAL package.
