

## Description

### Custom Sheet Metal Fabrication Parts Welding Stamping Cutting Service

Are you looking for a reliable and experienced [China sheet metal fabrication parts manufacturer](#)? Look no further! Our China factory specializes in providing top-quality custom sheet metal fabrication parts that are perfect for a wide range of industries and applications.

Our skilled team of professionals is dedicated to delivering precision and excellence in every project we undertake. From welding to stamping to cutting, we have the expertise and equipment to handle all your sheet metal fabrication needs with the highest level of quality and efficiency.

As a leading [sheet metal fabrication parts China factory](#), we understand the importance of meeting our customers' unique requirements and specifications. Whether you need custom prototypes or large-scale production runs, we are committed to delivering superior products that meet or exceed your expectations.

Our state-of-the-art facility is equipped with the latest technology and machinery to ensure that every part we produce is of the highest quality. We use advanced techniques and processes to guarantee accuracy, consistency, and durability in every sheet metal fabrication part we create.

When you choose us as your [China sheet metal fabrication parts supplier](#), you can trust that you are receiving the best products and services in the industry. Our team is dedicated to providing exceptional customer service and support throughout the entire process, from design to delivery.

Trust our China factory to provide you with the custom sheet metal fabrication parts you need for your next project. Contact us today to learn more about our welding, stamping, and cutting services, and discover how we can help you achieve your goals with precision and excellence.

## Specifications

Place of Origin	Jiangsu, China (Mainland)
Brand Name	HOUDRY
Model Number	Custom Made
Certificate	ISO9001:2015/SGS
Material	Stainless Steel/Iron/Aluminum
Fabrication Process	Stamping, Bending, Laser Cutting, Welding, Forging, Casting, Maching
Tolerance	±0.1mm
Surface Treatment	Mirror Polishing, Powder Coat, Zinc Plate, Paint, Brushing as per drawing
Service	Custom OEM/ODM sheetmetal fabrication service
Supplier Type	Manufacturer/Fabicator/Factory/Designer
Package	Standard package/individual package for export or as requested
Delivery time	7 - 20 working days or negotiable

## Company Introduction

Suzhou Houdry Mechanical and Electrical Technology Co., Ltd. is a manufacturing factory which engaged in sheet metal fabrication services since 2008. Now our factory covers 12,000 square meters, with 250 employees including 8 senior engineers and 10 quality engineers. Houdry has good cooperative with SIEMENS, AMADA, AMETEK, OERLIKON, etc. Annual value of \$16 million. Houdry can provide various of sheet metal fabrication service, such as sheetmetal stamping parts, laser cutting, cnc machining, welding, bending, forging, casting, etc.and surface treatments such as painting, anodize, power coating, zinc-plating etc.

Our sheet metal fabrication products are widely used in various areas such as cold chain products, net working products, bus air condition unit, invertor metal forming parts and track safety door part.

Our main customers are from overseas markets such as Germany, the United States, the United Kingdom, France, Singapore, and Sweden.

## Our Factory

Our company can provide various of sheet metal fabrication service, such as sheetmetal stamping parts, laser cutting, cnc machining, welding, bending, forging, casting, etc.and mirror polishing, powder coat, zinc plate, paint, Brushing as per drawing.

## Equipment

We have laser cutting machine, robot welding machine, bending machine, stamping machine, cnc machining centers, milling machine, grinding machine, injection mold machine and so on equipments. Can produce most metal products.

Laser Cutting Machine

Robot Welding Machine

CNC Machine

Bending Machine

## Production Process

1. Blank

2. Bending

3. Plating

4. Riveting

5. Bending again

6. Forming

## Our Package

Standard package/individual package for export or as requested. Sheet metal parts are usually packed in carton box, then packed in plywood pallets or plywood boxes.

## FAQ

**Question 1: What is Sheet Metal Fabrication Stainless Steel?**

**Answer:** Sheet Metal Fabrication Stainless Steel is the process of cutting, bending, and assembling stainless steel sheets to create various products such as enclosures, brackets, panels, and more. This method allows for the customization of stainless steel components for different applications.>

**Question 2: What are the advantages of using Stainless Steel in Sheet Metal Fabrication?**

**Answer:** Stainless steel offers excellent corrosion resistance, durability, and strength, making it ideal for a wide range of applications. It is also aesthetically pleasing, easy to clean, and can withstand high temperatures, making it suitable for various industries, including automotive, aerospace, and food processing.

**Question 3: How is Stainless Steel sheet metal fabricated?**

**Answer:** Stainless Steel sheet metal fabrication involves several steps, including cutting the stainless steel sheet to the desired size, bending it into the required shape using specialized equipment, and assembling the pieces through welding or fastening methods. The final product is then finished with surface treatments such as polishing or coating.

Question 4: What are the applications of Sheet Metal Fabrication Stainless Steel?

Answer: Sheet Metal Fabrication Stainless Steel is used in a wide range of industries for various applications, including manufacturing of kitchen equipment, medical devices, architectural components, automotive parts, and more. Its versatility and durability make it a popular choice for many projects.

Question 5: How can I ensure the quality of Sheet Metal Fabrication Stainless Steel products?

Answer: To ensure the quality of Sheet Metal Fabrication Stainless Steel products, it is essential to work with a reputable and experienced fabricator who uses high-quality materials, advanced equipment, and follows strict quality control measures. Inspecting the finished products for accuracy, strength, and finish is also crucial.

Question 6: Can Sheet Metal Fabrication Stainless Steel be customized according to specific requirements?

Answer: Yes, Sheet Metal Fabrication Stainless Steel can be customized to meet specific design, size, and functional requirements. Fabricators can work closely with clients to understand their needs and create custom solutions that meet their exact specifications.
