

Product description

|                       |  |
|-----------------------|--|
| Item                  | sheet metal parts  |
| Manufacturing process | laser cutting/tapping/riveting/bending                           |
| Material              | stainless steel  |
| Surface treatment     | clean  |
| thickness             | 1.2mm  |
| Tolerance             | ±0.1mm   |
| Package               | Safe carton case or wooden case                                  |
| Quality control       | ISO 9001:2015 /SGS   |
| Shipping              | sea shipment   |
| Payment term          | Fist order:T/T30% in advance, T/T 70% against copy of B/L or L/C |
| Main markets          | North America,West Europe,Australia                              |

## Our service

|                           |   |
|---------------------------|---|
| Item                      | OEM/ODM sheet metal fabrication                                   |
| All material              | stainless steel/aluminum/SPCC/SECC/CU/SGCC/SHCC,etc               |
| All manufacturing process | laser cutting/stamping/bending/tapping/riveting/welding,etc       |
| Product surface treatment | anodizing/powder coated/mirror polishing/plating/wire drawing,etc |
| Material thickness        | 0.4mm-16mm  |
| Product tolerance         | 0.01mm-0.1mm  |

### FAQ

1. Q: DO you have products in stock?

A: No, we are OEM/ODM manufacturer. We produce parts based on customer's drawing ,and sample.

2. Q: How many types of materials you can provide?

A: We have most of materials to satisfy your products: stainless steel, carbonized steel, aluminium, brass, copper etc.

3. Q: Can you make surfacetreatment ?

A: Yes, we have long term and trusted cooperated factory which can make perfect surface treatment: powder coating, anodizing, eletric plating, silk screen.etc.

4. Q: How do you proceed your quality control system?

A: We have 3D CMM, 2D projector, stalt spray test equipments, colorimeter, coating thickness gauge and other advanced testing equipment.18 quality requirements to be proceeded for 100% inspection report before shipment.

5. Q: How about packaging ? Is your quoted price including package?

A: Normally we pack products with solid carton box. We can quote you with different packing options, like individual wrapping , blister or even custom design packing.

6. Q: Can I get sample?

A: Yes, free sample which under 20\$ cost can be provided by freight collected.

7. Q: How to get a formal effective quotation?

A: We can provide effective quotation within 48 hours after your drawing or sample received.

8. Q: Can you provide material certificates, treatment certificates and dimensional reports?

A: Yes,certificates can be provided per request before B/L by email.

9. Q: What format is required for sending drawings?

A: JPG, PDF,CAD Solid works,UG, Pro/E, 3D modol will be preferred.

10.Q: What's your production capability?

A: We have laser cutting machines ,NCT punching machines ,bending machine, revieting machines, spot welding machines. Arson welder machines, CO2 welder machines, stamping machines, punching machines. All welding operator have related certificates.
