

## Description

### [China Sheet Metal Fabrication Stainless Steel Manufacturers](#) Wholesale Custom Metal Sheet

Are you looking for high-quality sheet metal fabrication services in China? Look no further! Our stainless steel manufacturers specialize in custom metal sheet fabrication, offering top-notch products at wholesale prices. With years of experience in the industry, our factory in China is equipped with state-of-the-art machinery and a team of skilled professionals to meet all your fabrication needs.

As one of the leading [sheet metal fabrication stainless steel factory China](#), we take pride in our commitment to excellence and customer satisfaction. Whether you need custom metal sheet components for automotive, aerospace, or any other industry, we have the expertise and resources to deliver top-notch products that meet your specifications.

Our sheet metal fabrication process involves cutting, bending, and assembling stainless steel sheets to create durable and precise components. We use the latest technology and techniques to ensure the highest quality and accuracy in every product we manufacture. From prototypes to large-scale production runs, we can handle projects of any size with efficiency and precision.

When you choose our [China stainless steel sheet metal fabrication suppliers](#), you can expect superior craftsmanship, quick turnaround times, and competitive pricing. We work closely with our clients to understand their unique requirements and provide customized solutions that meet their needs. Whether you need a single prototype or a large batch of custom metal sheets, we are here to help.

Contact us today to learn more about our sheet metal fabrication services in China and how we can assist you with your next project. Let us be your trusted partner for all your stainless steel fabrication needs.

## Specifications

Place of Origin	Jiangsu, China (Mainland)
Brand Name	HOUDRY
Model Number	Custom Made
Certificate	ISO9001:2015/SGS
Material	Stainless Steel/Iron/Aluminum
Fabrication Process	Stamping, Bending, Laser Cutting, Welding, Forging, Casting, Maching
Tolerance	±0.1mm
Surface Treatment	Mirror Polishing, Powder Coat, Zinc Plate, Paint, Brushing as per drawing
Service	Custom OEM/ODM sheetmetal fabrication service
Supplier Type	Manufacturer/Fabicator/Factory/Designer
Package	Standard package/individual package for export or as requested
Delivery time	7 - 20 working days or negotiable

## Company Introduction

Suzhou Houdry Mechanical and Electrical Technology Co., Ltd. is a manufacturing factory which engaged in sheet metal fabrication services since 2008. Now our factory covers 12,000 square meters, with 250 employees including 8 senior engineers and 10 quality engineers. Houdry has good cooperative with SIEMENS, AMADA, AMETEK, OERLIKON, etc. Annual value of \$16 million. Houdry can provide various of sheet metal fabrication service, such as sheetmetal stamping parts, laser cutting, cnc machining, welding, bending, forging, casting, etc.and surface treatments such as painting, anodize, power coating, zinc-plating etc.

Our sheet metal fabrication products are widely used in various areas such as cold chain products, net working products, bus air condition unit, invertor metal forming parts and track safety door part.

Our main customers are from overseas markets such as Germany, the United States, the United Kingdom, France, Singapore, and Sweden.

## Our Factory

Our company can provide various of sheet metal fabrication service, such as sheetmetal stamping parts, laser cutting, cnc machining, welding, bending, forging, casting, etc.and mirror polishing, powder coat, zinc plate, paint, Brushing as per drawing.

## Equipment

We have laser cutting machine, robot welding machine, bending machine, stamping machine, cnc machining centers, milling machine, grinding machine, injection mold machine and so on equipments. Can produce most metal products.

Laser Cutting Machine

Robot Welding Machine

CNC Machine

Bending Machine

## Production Process

1. Blank

2. Bending

3. Plating

4. Riveting

5. Bending again

6. Forming

## Our Package

Standard package/individual package for export or as requested. Sheet metal parts are usually packed in carton box, then packed in plywood pallets or plywood boxes.

## FAQ

**Question 1: What is Sheet Metal Fabrication Stainless Steel?**

**Answer:** Sheet Metal Fabrication Stainless Steel is the process of cutting, bending, and assembling stainless steel sheets to create various products such as enclosures, brackets, panels, and more. This method allows for the customization of stainless steel components for different applications.>

**Question 2: What are the advantages of using Stainless Steel in Sheet Metal Fabrication?**

**Answer:** Stainless steel offers excellent corrosion resistance, durability, and strength, making it ideal for a wide range of applications. It is also aesthetically pleasing, easy to clean, and can withstand high temperatures, making it suitable for various industries, including automotive, aerospace, and food processing.

**Question 3: How is Stainless Steel sheet metal fabricated?**

**Answer:** Stainless Steel sheet metal fabrication involves several steps, including cutting the stainless steel sheet to the desired size, bending it into the required shape using specialized equipment, and assembling

the pieces through welding or fastening methods. The final product is then finished with surface treatments such as polishing or coating.

Question 4: What are the applications of Sheet Metal Fabrication Stainless Steel?

Answer: Sheet Metal Fabrication Stainless Steel is used in a wide range of industries for various applications, including manufacturing of kitchen equipment, medical devices, architectural components, automotive parts, and more. Its versatility and durability make it a popular choice for many projects.

Question 5: How can I ensure the quality of Sheet Metal Fabrication Stainless Steel products?

Answer: To ensure the quality of Sheet Metal Fabrication Stainless Steel products, it is essential to work with a reputable and experienced fabricator who uses high-quality materials, advanced equipment, and follows strict quality control measures. Inspecting the finished products for accuracy, strength, and finish is also crucial.

Question 6: Can Sheet Metal Fabrication Stainless Steel be customized according to specific requirements?

Answer: Yes, Sheet Metal Fabrication Stainless Steel can be customized to meet specific design, size, and functional requirements. Fabricators can work closely with clients to understand their needs and create custom solutions that meet their exact specifications.
