

Suzhou Houdry Mechanical And Electrical Technology Co.,Ltd

Item	sheet metal fabrication work
Mould	Tooling in house Mould charge is allowed in advance for special parts After certain quantity , we can return to you
Product include	varieties of metal stamping parts, metal press stamping parts, metal welding parts, metal drawing parts, metal punch parts, CNC Metal parts, CNC metal machining parts, CNC metal machined parts, CNC metal milling aluminum parts, CNC metal turning stainless steel parts, Metal chassis, metallic cabinets, metal cabinets, metal cases, metal enclosures, metal boxes metallic machinery casing, metallic communication products, metallic auto parts, metallic refrigerator parts, metallic washing machine parts, vending machine shell fabrication, communication cabinet fabrication, mold designing making and so on.
Material available	Carbon steel (CRS/SPCC, SECC,etc),Stainless steel, spring steel, Bronze (beryllium, phosphor, etc), brass, copper alloy, aluminum alloy, tinplate, nickel silver,
Surface treatment available	zinc/nickel/chrome/tin plating(colour or natural), Galvanization, anodizing, oil spraying, powder coating, polishing, passivate, brush, wire drawing, etc.
Metal processing available	Stamping mould sheet metal fabrication work: tooling making, samples approval, cutting, stamping, punching, tapping, welding, bending and forming, finishing, assembly; CNC parts: CNC lathe milling, CNC lathe turning, drilling, tapping, finishing, assembly, packing
Specification	OEM/ODM, according to customer's drawing or sample
Tolerance	Stamping parts:0.01-0.1mm, CNC machining parts:0.1-0.002mm
Service available	Before mass production, we supply pre-production samples for customer final confirmation, tooling maintenance and tooling slight change free
Packing	Inner packing : polybag ; Outer packing : export cartons ; Customized packing available .
Delivery	By sea or by air;the delivery date is according to specific orders Usually within 30 days after receiving 30% down payment
Payment	First order:T/T 30% in advance, T/T 70% against copy of B/L or L/C

What can Houdry do?

- >>We have professional technical team,can help you with product design.
- >>Our production involves the CNC machining and sheet metal,welding, laser cutting,wire cutting,deep drawing etc.can help you with complex processing products.
- >>Stable support for heat treatment and various surface treatment to meet customer s overall requirements.
- >>High quality and accuracy lead time

How we ensure the quality?

>>Once the order release,technology department will study the whole processing and attention according to customers requirements,and make the QC schedule,SIP,improve the decompose drawings of each process, call all department together to emphasis each process control point.

>>Quality control inspecting during all the production from raw material purchasing,production,surface treatment and package,so they can amend in time once issue happened.
